

ExplorArt Scavenger Hunt

Science and art have lots in common! Both scientists and artists are creative, patient, curious and observant. Use your own curiosity and powers of observation to complete this scavenger hunt. Each item is part of one of the three art installations around Explorit's two sites. Can you find them all?

- An image of a flying machine
- An image of bubble chamber
- An image of an orca
- An image of a chicken
- Ceramic sculptures of two pigs
- Ceramic sculpture of the continent of Australia
- Ceramic sculpture of Saturn
- Ceramic sculpture of a hummingbird
- A solar calendar
- Clay tiles with the words "Evidence of Life"
- Clay tile with an oak tree leaf
- Clay tile with an insect

About the artists

Standing Wave's Chris Daubert works in many media and is particularly interested in perception and recognition. He teaches art and art history at Sacramento City College.

Evidence of Life's Sam Tubiolo has been awarded numerous grants and art residencies in New Mexico and California. His work has appeared in solo and group exhibitions around the country.

The Science Mosaic Bench's Linda S. Fitz Gibbon teaches at the Davis Art Center. Lucy Ruth Wright Rivers exhibits artwork in a variety of media.

About Explorit Science Center

A visit to Explorit is a hands-on experience. Our mission is to involve people in science experiences that touch our lives, and each year our programs are used by more than

75,000 people from Northern California and beyond.

At our main facility on Second Street, we offer public hours for visitors to explore our large Jonsson Family Gallery, a Wet Lab, a Microscope Nook and

a Discovery Room with an Animal Alcove. Thousands of students visit on field trips each year.

At our Mace Park Branch, we host nature-based field trips and special events. And finally, we take science programs on the road to schools and community centers. We're always looking for new ways to promote informal science learning through our "Think it, Try it, Explorit" model.

Locations

Explorit Science Center
2801 2nd St.
Davis, CA 95618
(open to the public)
