

Explorit Science Center Teacher Training Series

Primer for the California Next Generation Science Standards

Saturday, June 24, 2017

The CA NGSS are complex and multi-faceted. This class is designed to assist educators in navigating the nuances of phenomenon-based learning. Participants will gain insight into the standards and experience several lessons that can be brought back to the classroom. Space is limited so register now!

Instructor: Chris Breazeale
Grade levels: K-12
Time: 8:30am – 12:30pm
Workshop Fee: \$75
Location: Explorit Science Center
3141 5th Street, Davis, CA 95618
To Register: Online at explorit.org, or call 530.756.0191

About the Instructor

Chris Breazeale is the Executive Director of Explorit Science Center. As a former field scientist and middle school teacher, Chris has a unique blend of content knowledge and teaching style. Most recently, he served as the State Lead for the implementation of the Next Generation Science Standards at the California Department of Education.
